

CO-GREEN
EVENT 7 "TRAINING DESIGN"

INTERNATIONAL Workshop

October 8 - 9 - 10, 2023

University of Rome "Tor Vergata"
Scuola IaD
Aula "Galileo"
Via Cambridge - Rome (I)

With this **onsite workshop**, we aim at developing the CO-GREEN trainers' training programme, encompassing a wide range of topics, methods, and hands-on experiences to equip trainers with the skills and knowledge they need to facilitate effective training sessions and foster participation in local communities.

It encourages **active participation, reflection, and practical application**, ensuring that trainers leave with a strong foundation in training techniques and a deeper understanding of the complexities involved in social development and network building.

The resulting training modules and syllabus will be used in the Co-Green International Winter School that will take place in Karditsa, November 2023.

Co-funded by
the European Union

DAY 1

8 OCTOBER

15:00-18:30

15:00

Welcome address and sharing of the “house rules”
